テンプレート準備方法

The screenshot illustrates the process of uploading a PDF file to a Miro workspace. On the left, a Windows File Explorer window titled 'ダウンロード' (Downloads) is open, showing a file named 'ファシリテーター育成（1グループ用）#テンプレ .pdf' (5.23 MB) selected. In the center of the Miro canvas, a large grey circle with a white arrow pointing down and the word 'drop' indicates the target for the file. Above this circle, a PDF icon is shown with a '+ コピー' (Copy) button. The Miro interface includes a top toolbar with icons for undo, redo, copy, paste, and share, and a left sidebar with various drawing tools. The bottom right corner shows a zoom level of 195%.

テンプレート準備方法

The screenshot shows the Miro online workspace interface. At the top, there is a toolbar with icons for undo, redo, search, and other functions. Below the toolbar, there is a large canvas area. On the left side of the canvas, there is a vertical toolbar with icons for various drawing tools. In the center of the canvas, there is a large rectangular frame containing several smaller rectangular frames, each containing a diagram or flowchart. A red arrow points from the text on the right to a small lock icon in the top right corner of the canvas frame. The text on the left explains that after pasting a PDF, it should be fixed so it doesn't move. The text on the right explains that clicking a PDF will bring up a key mark, and clicking it will fix it.
