

Japan IT Security Evaluation and Certification Scheme

Certificate

is awarded to

Certification Number: C0427

Electronic Commerce Security Technology Research Association

Protection Profile Name: Secure IC chip for embedded devices Protection Profile

Version: 1.0

Evaluation Criteria:

- Common Criteria for IT Security Evaluation Version 3.1 Release 4

Evaluation Methodology:

- Common Methodology for IT Security Evaluation Version 3.1 Release 4

Assurance Package Claimed in Protection Profile: **EAL4**

Protection Profile Conformance: **None**

Name of CCTL: **ECSEC Laboratory Inc. Evaluation Center**

Date of Certification: **March 31, 2014**

The Protection profile identified in this certificate has been evaluated at an approved evaluation facility established under the Japan IT Security Evaluation and Certification Scheme using the Common Methodology for IT Security Evaluation, Version 3.1 Release 4, for conformance to the Common Criteria for IT Security Evaluation, Version 3.1 Release 4. This certificate applies only to the specific version and release of the Protection Profile and in conjunction with the complete certification report. This evaluation has been conducted in accordance with the provisions of the Japan IT Security Evaluation and Certification Scheme and the conclusions of the evaluation facility in the evaluation technical report are consistent with the evidence adduced. This certificate is not an endorsement of the Protection Profile by the Information-technology Promotion Agency or by any other organization that recognizes or gives effect to this certificate, and no warranty of the Protection Profile by the Information-technology Promotion Agency or by any other organization that recognizes or gives effect to this certificate, is either expressed or implied.
